

ENAM (21002531) AND ZAKARIA (22034792)

silky

Turantula/ female

15 years old

Hairy, 8 legs, stocky build, 8 eyes

Webbing, catching prey, skill- climbing trees

Poor vision, slow movement, short life span

Enduring qualities: eight legs, fangs, two main body parts, venom

Had travelled in a suitcase from the amazon

- Misses its family ends up in the uk
- Faces challenges such as being in a colder climate
- Lays its eggs in parks hoping to expand its colony
- Has to try and evade predators such as big birds
- grasshoppers and crickets are a source of food
- 

End goal: to become the most dominant predator securing its territory from rival spiders, and laying its eggs for the survival of its species
